

Stay in Control of Your Credit Limit

Your financial wellbeing is our priority, and we're committed to helping you manage your credit with greater confidence and control.

Your Deem Card is designed to give you flexibility when you need it most. To help you avoid additional charges and ensure uninterrupted usage of your card, we encourage you to regularly monitor your available credit limit.

Please note that if your outstanding balance exceeds 100% of your approved credit limit, an Over Limit Charge of AED 341.25 may apply. In some cases, transactions may also be declined once the approved limit is reached.

A few simple ways to help you stay within your limit:

Review your statement regularly

Track your spending instantly on the Deem Mobile App

Make early or partial payments when possible

Keep some available credit for upcoming or essential expenses

Staying on top of your credit limit today can help you avoid unnecessary charges and maintain greater financial flexibility tomorrow.

For further inquiries, please call our Contact Center on [600525550](tel:600525550).

Warm regards,
